Mail Bids to Sale Consultants or Auctioneers

TERMS AND CONDITIONS

1. Each animal will be sold to the highest bidder without reserve.
2. The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.
3. The terms of the sale are cash.
4. Each animal will be at the purchaser's risk as soon as sold, but will not be delivered until settlement has been made. Cattle will be cared for and loaded on cars or trucks free of charge. Every precaution will be taken, however, they will be at purchaser's risk of loss or injury.
5. The cattle have all been tested for Tuberculosis and Bang's Disease within 30 days of sale date. All heifers in the sale have been vaccinated and certificates of vaccination will be furnished. The herd is fully accredited for T.B. and has passed the test under the Federal Bang's policy. We have never had T.B. or Bang's reactors in our herd or on our farm.
6. A certificate of registry and transfer will be furnished for each animal sold, including calves at foot.
7. Bulls, over 14 months of age, are guaranteed breeders. Females reported as "safe with calf" are guaranteed. Females reported as "bred" are believed to be in calf, but are not so guaranteed. Females safe in calf or with calf at foot are considered breeders without further guarantee. Should an animal sold as safe in calf prove not to be, the seller may make a 20% refund which will absolve the seller from further liability.
8. All claims for adjustment and refund for any reason must be made in writing within 90 days from the sale or within three months after the animal sold reaches the age of 18 months, whichever occurs later. The return of the purchase price will in any case be deemed full satisfaction and settlement.
9. Breeding dates, where possible, will be supplied on date of sale. Any changes from information of any kind in the catalog will be announced from the auction box and these will take precedence.
10. All persons who attend the sale do so at their own risk, and neither the owner nor sale manager assumes any liability, legal or otherwise, for any accidents which may occur or the behaviour of the animals.
11. The above guarantees and terms of sale shall constitute a contract between the buyer and seller of each lot, and shall be equally binding upon both. It is understood that no other guarantees or terms express or implied shall apply to animals sold in this sale.
12. Reliable truckers will be available and we will make arrangements for shipping your cattle at your request.

WELCOME TO CARIG POLLED SHORTHORN SALE

My decision to break up my breeding herd of Polled Shorthorn cattle was not easily reached. Realizing that a herd is only as good as the females in it, wherever good ones were offered I tried to buy them. This has entailed much travelling and expenditure of very substantial sums of money, and, I believe, has produced a herd of which I can be justly proud. I was fortunate in having top herd sires to complete my breeding programme. However, circumstances make it necessary to have this sale.

I believe this will provide wonderful buying opportunities. Many are beautifully bred, and are outstanding individuals, the kind that are seldom available. Polled Shorthorns are on the march. This is a sale for those who recognize the opportunity that lies ahead.

On June 5th I hope every Shorthorn breeder who is interested will be at the sale, regardless of whether you breed them polled or with horns. I hope a majority of our top animals will not be lost to Western Canada, but wherever they go I am sure they will do well for their new owners.

Whether you buy or not, I will hope to see you on June 5th.

Sincerely yours,
C. B. "JACK" CARIGNAN.

CARIG FARM POLLED SHORTHORNS

We submit for your consideration this most impressive record our polled herd has ever made in horned competition. It is an accomplishment we may never again be able to equal. We have the highest regard for the good herds, horned and polled, that competed, and are humbly proud to have won over such excellent horned and polled cattle.

Edmonton Futurity, 1961

Shorthorn Females

- Class 7—First.
- Class 8—First and Second.
- Class 9—Pair heifers—First.
- Grand Champion Shorthorn Female.
- Class 10—Continuation class—First.
- Class 11—Get of sire—First.

Shorthorn Bulls

- Class 2—Second.
- Class 3—Second.
- Class 4—Pair of bulls—Second.
- Reserve Grand Champion Shorthorn Bull.

We were the only Shorthorn Breeder, horned or polled, to score in the Interbreed Competition. We won two Reserve Grand Championships.

I LIKED WHAT I SAW

In recent years we've been hearing a lot about Jack Carignan's Polled Shorthorns. They've been holding their own whenever they appear in such public places as shows and sales.

The real test, however, is what you see when you visit the producing herd, and inspect it under natural conditions. This is what I had the opportunity of doing last March, and quite frankly, I liked what I saw.

The cattle, all in corrals, with open end shelters, appear to have taken the winter in their stride. I'd say they could contend with any type of climate that could be thrown at them . . . and thrive in their outdoor quarters.

I liked the capacity of the cows . . . liked the big "bread-baskets" they carried, with the obvious ability to handle roughage and convert it into a saleable product.

I've no idea how many miles Jack Carignan travelled while he was assembling the foundation for this herd. I do know that wherever good polled cattle were being offered, he was there, and if he liked what he saw, he tried to buy it.

It is not my intention to go into details about such things as health, although I believe I am correct in saying that there have never been any T.B. or Brucellosis reactors on the farm. Nor do I wish to stress the pedigrees of many of the foundation females, close up to the continent's top show winners. Rather, I have attempted to give my overall impression of the herd.

It is my opinion that Shorthorn breeders, both Polled and Horned, can find a depth of foundation material in the cattle being offered at Carig Farm Sale on June 5th.

Let me summarize briefly by saying "I liked what I saw".

Field Representative,

This great son of the 1955 International Grand Champion was Reserve Grand Champion, Edmonton Futurity 1959. I refused \$2,000 for half interest in him, to go to the U.S. This would have entailed shipping semen back to me which I do not consider a satisfactory method of insemination for purebred breeders. His sons and daughters in this sale are proof of his value as a herd sire. His son Reserve Grand Champion in horned competition, Carig Roan Lancer, sells in this sale.

Reserve Champion 1961 Edmonton Futurity. He looks like a sire, good smooth head, wide quartered and low set. The longer you study him and his background the more certain you will become. His sire, Carig White Cloud, was Reserve Champion also. His dam, Downsview Rosemary 60th, has been a wonderful producer—a calf every year and every one a top. Every great bull has had a great mother. No one will deny his dam is a top cow.

This junior calf we intended fitting for the Western International. You will notice his dam is a half-sister of the Reserve Champion and he is by the same sire as the top selling bull in Calgary, 1960. He combines so much in the breeding we like, good smooth head, wide-quartered. If properly fitted and shown would do well in any competition.

Another one of the good horned cows that I used as a foundation female. Her dam purchased by Armor Middleton in our first sale is still producing. We were unfortunate in losing her calf but her yearling daughter, Lot No. 41, is proof of her breeding. We are keeping her milking in case the buyer might want to use her. She was bred April 2 to Carig White Cloud.

Dear Mr. Tolson,
I am enclosing a copy of the
newspaper which I have just
brought from the library.
I hope you will find it
useful.
Yours sincerely,
John G. Pendleton, Jr.

The only difficulty of this paper is that the
newspaper is not in the original form.

Yours truly,
